The New Whole Unusuals - Present Martin Moeh - CD

The New Whole Unusuals I can't decide if this CD gave me my current headache, or if it just drew on out that was already there and intensified it. Think of the result you would get if you put **Ween**, **Mr. Bungle** and **Dave Thomas** of **Pere Ubu** in a room filled with various instruments and the corpse of **Frank Zappa** while films of early black and white cartoons were projected on the walls, and then you dared them. DARED THEM to come up with something weird that moderately still resembling the structure of a proper song. Now if this scenario appeals to you then this is the CD for you. All I can say is make sure you take an aspirin just in case you have a migraine developing below the surface of your skull. That's all I'm saying.
